About the college:

GNGC is a relatively small, only for Girls college situated in a green and noise free, safe and secure complex. These circumstances work to the advantage of our students, who often enjoy the individual, personal attention that only a small college can provide and, at the same time, attend classes that offer an impressive array of intellectual challenges and rewards.

Through discussion and debate, through writing, and through direct interaction between instructor and student, our core curriculum helps improve each student's ability to engage in the kinds of analytic, discursive, and imaginative thinking that will prove indispensable in both subsequent education and later life.

What the students think about GNGC

'One of my strongest first impressions was the sense of identity that this college has. I know that when I was admitted to GNGC, I was worried that a modern college might lack a sense of history...but my fears were unfounded! GNGC is a distinctive, vibrant, and a very friendly place. We are proud of who we are, but we don't let tradition hold us back!' studying M.Com

Tutors and supervisions

'I really admire the way all the staff work so hard to make sure I am as comfortable as possible here - I honestly couldn't ask for more' studying B.Com-professional
